MEMORANDUM FOR: Committee on Overhead Reconnaissance  
25X1 SUBJECT: Evaluation of  Mission C114C

1. The following information is provided by the PhotoWorking Group for the information and reference of COMOR.

2. Review of Mission C114C indicates that target coverage was insufficient for evaluation of possible Chinese buildup in South China. The mission did not cover any targets west of Nan Ning and 16 of the 21 highest priority targets pertinent to such a buildup are located west of Nan Ning. Photography was attempted on four of the five highest priority targets in the area east of Nan Ning, but effective coverage was obtained on only one - the Shu Chang Supply Depot. Clouds obscured most of the other three. No unusual activity was noted at Shu Chang.

3. 19 installations were read out from the mission, including 16 COMOR targets, six of which were mostly cloud covered. Usable photography covered four airfields, four military barracks or supply areas, four naval bases or ports,  Significant results include negation of a suspect submarine base on Nao Chou Tao Island, and evidence of considerable construction activity  and at an airfield south of Nan Ning.
